---

Zoo Lagos is a magnificent zoo, founded on the principle of “conservar-educar-proteger” (conservation-education-protection). You can tell as soon as you go in that Zoo Lagos is all about the animals, the environment they live in is beautiful and the animals are so happy that many of them are breeding!

Zoo Lagos isn't a big commercial zoo, but it is beautiful and relaxing and can be travelled around with ease - it makes it a great day out for all ages, without being too tiring. But with more than 120 animal species and 200 botanical species from 5 continents, there is so much to look at that you'll want to go back again and again!

Quinta Figueiras - Sítio do Medronhal  
Barão de S.João  
8600 - Lagos
