### Ria de Alvor

The Ria de Alvor has the most beautiful coastal landscapes of the Algarve mixing beach, canal

,  
pond and  
marsh

.

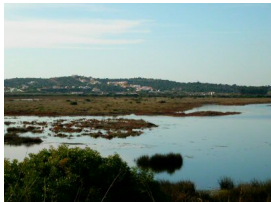

It is one of the most important regional wetlands, immediately after the Ria Formosa and Mar

shland  
to  
Castro  
Marim.

Over the fence of his 1500 acres, ria presents a set of semi-natural habitats and natural and  
preserved and significant diversity in terms of relevance Europe which justifies their inclusion  
in the Natura  
2000 network.

Alvor estuary (drowned river valley) has one of the most beautiful riverside landscapes of the Algarve

, the  
true  
mixture  
of beach

,  
channels,  
fen  
and  
lagoon

.  
It  
is  
one  
of  
the most
